 TOPBUILT

Founded in 1993, Changzhou Wuppertal Tools Co., Ltd specializes in production of high-quality nail hammers, ball peen hammers, sledge hammers, club hammers and other hand tools.

Despite of difficulties and hardships in the past over 30 years, the company now has 12,200-square meters factory buildings and 100 employees and can manufacture 300,000 hammers every month. We have always striven to offer high-quality products.

Since our Company was founded 30 years ago, we have taken all processes including forging, lathing, cutting, milling, heat treatment, powder coating, polishing, rustproof surface treatment, assembly and packaging seriously.

The factory now has 15 sets of dedicated equipment including lathing, cutting, drilling and milling equipment for pre-heat treatment

processing of hammer blanks, 3 sets of heat treatment equipment and 2 sets of tempering equipment so as to guarantee that the hardness of every hammer meets the standards. 20 grinding and polishing personnel guarantee the daily output.

The Factory Testing Center has dedicated equipment such as tensile testing machines, hardness testing machines and salt spray testing machines for the random check during the production of every order and the inspection of products before they leave the factory.

The 2 spray coating lines can conduct rustproof surface treatment or powder

coating surface treatment of hammers according to customer demand. The factory can print customers logo on hammer heads by laser marking machine and engrave the customers logo or patterns on the wood handles by laser machine. Meanwhile, we also agree to mark products with trademarks designated by customers and manufacture products according to customers' drawings or samples.

Thank you for choosing our products. In order to build a hand tool manufacturer with the best tool brand in China, we work in a down-to-earth way and keep marching forward towards a higher goal, with a positive spirit. Sincerely look forward to cooperate with you.
